Te Whanganui-a-Tara Wellington
Aotearoa New Zealand

Jen Archer-Martin is a spatial designer, researcher and educator. Jen was a research and teaching academic (Senior Lecturer) at Massey University College of Creative Arts, Wellington, New Zealand from 2012-2023. Her research and teaching centre around a bicultural philosophy of *care* that is played out through spatio-temporal practices. Her work explores how everyday and evental environments set the stage for acts of care, manaakitanga and kaitiakitanga for ourselves, others and the world around us, thus facilitating the wellbeing of interconnected ecologies. Jen's mahi is underpinned by kaupapa Māori and Te Tiriti-led approaches that reflect her identity as both tangata whenua and tangata Tiriti.

Prior to her work as an academic, Jen was a practicing spatial designer for seven years, both in Te Whanganui-a-Tara Wellington, Aotearoa, and London, England. Her work covered a wide range of spatial design practices, including interior, architectural and event design. Her current spatial design and freelance research and education practice involves supporting iwi, hapū and whānau Māori to realise their aspirations in designing wellbeing-enhancing living, learning, working and healthcare spaces. Jen is also able to facilitate relationships between non-Māori groups and individuals wanting to engage with mana whenua, pūrākau and mātauranga Māori, growing meaningful connections between people and te taiao.
